

## ALPINE NOTES

In spite of the inclement weather, a splendid representation of the Old Folks of Alpine were out to enjoy the usual winter gathering of the organization Wednesday, in the meeting house.

The activities commenced with a delicious hot dinner at noon, and tables were set till 2 o'clock. At 2:30 P. M. the aged, together with townspeople assembled to hear a splendid program.

Song—Choir—"America"  
Prayer—Patriarch Henry Moyle  
Chorus—Luella Strong and others  
Address of Welcome—Geo. E. Burgess.

Response—Angie Clark  
Reading—Mrs. Esther Hamnett.  
Song—Cathleen Chipman  
Reading—Golda Devey

Instrumental—Warren Clark, Hayden and Orson Brown.  
Reading—Alvin Whitby

Music—Furber Family  
Song—Earl Hunter, Leon Wilkins and LeMar Moyle.

Vaudeville Sketches—Ray Shelley  
Clarence Grant, Della Taylor, Mary Wild.

Song, Choir—Star Spangled Banner  
Prayer—Patriarch Henry Moyle

After the program, the aged were guests of honor at a supper which concluded the festivities of the day. Due to the fact that Alpine is without an Amusement hall, there was no dance or show in the evening.

The Old Folks Committee is to be complimented for the good success of the Old Folks Day.

Mr. and Mrs. Louis Olpin entertained Wednesday evening at a candy pull and card party. Those present were Luella Strong, Ruby Watkins, Bertha Strong, Della Moyle, Amber Strong, Cleome Martin and Warren Clark, Leland Beck, Leon and Fon Strong, Lyman and Myron Moyle. All report as having had an enjoyable time.

Mr. and Mrs. Lenard Bates are the proud parents of baby girl born Monday. Mother and babe doing nicely.

Mr. and Mrs. Alma Hamnett entertained at dinner Sunday complimentary to Mr. and Mrs. F. D. Strong and family. Covers were laid for 11 guests.

Misses Alloween Healy, Bitha McDaniel, Golda and Blanch Devey, Luella and Bertha Strong, Ruby Watkins, Dewey Bennett, Clem Strong, Waldo Bateman, Warren Clark, Leland Beck and Leon Strong were among those from Alpine who attended the "Four Horsemen of the Apocalypse" at the Realart Theatre in American Fork Friday night.

Miss Cathleen Chipman spent the week end in American Fork visiting relatives and friends.

## HAVE YOU SEEN THE SOUND OF YOUR VOICE

Professor Carl F. Eyring of the Brigham Young University physics department has been experimenting on the human voice, or the sound of musical instruments. Experiments have already progressed so far that sound waves are shown upon the screen. One is able to see the sound of his own voice as he names over for example, the vowels; or he may sound a violin and the wave is seen. Sing a song and the wave-form of notes will be recorded in pitch, loudness, and quality of tone and projected upon the screen.

It surely is a wonderful thing to be able to see on a screen why, for instance, vowels sound different and why instruments have characteristic tones, even though the vowels are sounded at the same pitch, the record shows the difference between o and a or any other vowels. The explanation of this lies in the fact that although the sounds are at the same pitch the vocal apparatus has been so adjusted as to give a different quality to notes. To be of the same pitch two notes must give out the same fundamental vibration. To have a different quality and still be at the same pitch, two notes must not only have the same fundamental vibration but also must have overtones of different relative intensities. It would appear, therefore that since instruments and persons have characteristic tone qualities, that the wave-form for each would be characteristic. This is found to be the case. Dr. Dayton C. Miller of the Case School of Applied Science, has made a careful study of these wave-forms. Dr. Dorsey, of Gloucester, Mass., has manufactured an apparatus similar to the one used by Dr. Miller. The B. Y. University, department of physics, has purchased one of these instruments and by its use is able to show the different wave-forms.

A view of the foregoing it is certainly true that the human voice can be seen and photographed.

## A. F. H. S. NOTES

The A. F. H. S. won a victory last Friday night from the U. of U. Freshies, the score being 34-49 in favor of the locals. The game was exciting, although the boys did not have to play as hard as they have done in some of the league games.

Tuesday night the last league game of A. F. was played with Lincoln. A. F. will go to the tournament first place this year.

Thursday the High School was favored with an exceptionally good program, given by the music department. Principal Mitchell of the Lehi High School, gave a very interesting talk. He congratulated A. F. on their good luck at basket ball this season and wished them success at the tournament.

The High School Band and Chorus furnished music for the remainder of the time.

Sunday evening the High school Band and Glee Club gave a program in the Second ward chapel. Mr. Gourley, principal of the Pleasant Grove High school, was the speaker of the evening.

The house was filled to an overflow and the program was very interesting.

Next Sunday evening the Band will furnish the program in the Third ward and it is expected that the house will be crowded.

The Theological Classes of A. F. H. S. furnished the program for the meeting held in the Second ward chapel Sunday afternoon. Short talks were also furnished by students.

The meeting was well attended and the program was very interesting and a complete success.

Tuesday Dr. Wanlass of the U. A. C. visited the High school and spoke to the students, urging them to go to college. Immediately after assembly, he met with the Juniors and Seniors and discussed with them the project of going through college.

Wednesday evening, Washington's birthday, the Domestic Science B girls served the Commercial Club and their partners at a banquet in the High school gym.

During the banquet toasts and program was given after which dancing was enjoyed the rest of the evening. It was well attended, being approximately 120 guests present.

Since the basket ball season started this is the first week that the High school has not held yell practice.

## UTAH FARM BUREAU NEWS

In the statewide survey which has included investigation along many different lines it has been found that farm and grazing land values in Utah have decreased from 25 to 50 percent since the year 1919 and 1920. The average as disclosed by all of the assembled information shows a decrease of 34.07 percent. This is information just made public by the tax and legislative committee of the Utah State Farm Bureau and is being used in a campaign throughout the state to bring about a reduction in assessments for 1922.

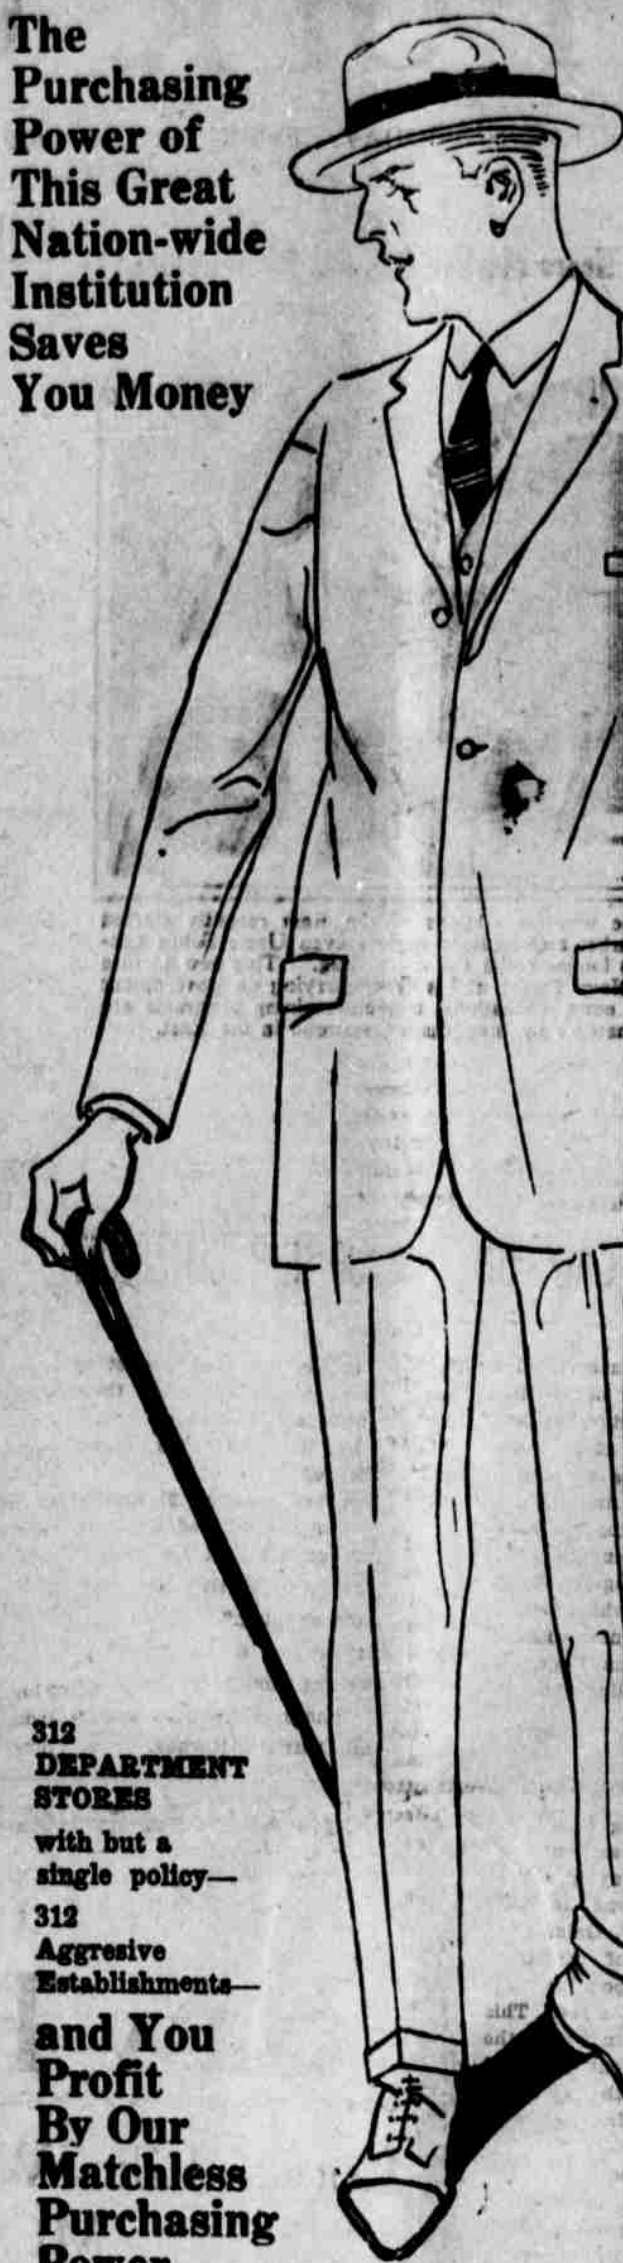

The figures not only bear out the stand taken by the farm bureau delegates in their recent resolution asking for a blanket reduction of 25 percent, according to the tax committee, but also will serve as a basis for action already taken by assessors and commissioners in some counties. In a report which has been made to the farm bureau officers in every county, the committee urges that wherever such reduction has not been put into effect immediate steps be taken to cooperate with assessors and commissioners to this end.

As authorized at the January meeting of the farm bureau in Salt Lake City, the tax and legislative committee consists of five members. They are, James M. Kirkman, Chairman; E. T. Capener, Ephraim Bergeson, David N. Beal, and Hershel Bullen. Concerning the work of this committee and the plans for the future, the recent report to farm bureau tax committee throughout the state shows.

"This committee has been busy making a study of land valuations in the various localities of the state; in personal interviews and from letters which we have received from many of the larger real estate companies, mortgage loan companies and some of the largest banks, including the Federal Loan Bank. We find that farm and grazing land values have decreased from 25 to 50 percent.

"In making an average of these replies it shows a reduction of 34.07

## The Purchasing Power of This Great Nation-wide Institution Saves You Money

312 DEPARTMENT STORES with but a single policy—312 Aggressive Establishments—and You Profit By Our Matchless Purchasing Power

# Character

## In Men's and Young Men's Clothes

---not the Character of the Men in the Clothes but the Character of the Clothes Themselves!

## A DIFFERENCE

THERE is a wide difference in what you get for what you pay when it comes to buying clothing. There are the final touches of finishing which means so much both to the appearance and the wearing service; there are the carefully inspected woolen fabrics and materials which go into the making that add to the ultimate satisfaction you experience; then there is the skilled workmanship which assures actual fitting garments—garments which properly shape themselves to the figure, giving the lines of custom tailoring.

These are the elements entering into clothing that give a welldefined character of superiority—which make them stand out so prominently when compared with ordinary makes—and it is these elements of character that distinguish the J. C. Penney Company clothing from all others.

## Our Spring Suits

For Men and Young Men

percent, all of which confirms the Utah State Farm Bureau in its previous action and recommendation and shows that the farmers were very modest in asking for a reduction of 25 percent.

"We have received reports from some counties to the effect that their assessors backed by the united approval of the county commissioners, are assessing property making this reduction. If you have not already done so we urge you to follow and adopt this action of the state farm bureau. Meet with the county assessor and county commissioners and see that this is done in your county."

The report also shows that the state committee has engaged the services of Frank Evans, former state senator

to assist along taxation and legislative plans. In connection with a recent meeting of the committee in Salt Lake City, the members conferred with Governor Charles R. Mabey and it is reported that they found him thoroughly in sympathy with the movement to equalize and place on an equitable basis the assessed valuation of agricultural property.

County farm bureau tax committees are advised in the report of the state body that all information assembled relative to the decreased valuation of farm property is available for use in the counties throughout the state. Members of the central committee, it is also announced, are ready at any time to give county farm bureau offi-

cers personal assistance along taxation and legislative line.

Taxation and legislation forms one of the principal projects of the state farm bureau this year, according to President Bergeson, and the results to date fully justify the efforts that have been expended in behalf of the farm owners.

### Some Job.

C. H. F. sends us the following extract from a college professor's letter of recommendation: "Miss D. has had complete charge of one of our laboratory sections, embracing 30 students twice each week."—Boston Transcript.
